RESEARCH INTEREST

My research focuses on **vision**, **multimodal learning**, and **trustworthy AI (XAI)**. I'm particularly interested in understanding how models perceive and reason about the visual world, and how we can ensure their outputs are interpretable and reliable.

EDUCATION

- | | |
|---|---|
| • Yonsei University
Ph.D., Artificial Intelligence (Expected Graduation: Feb. 2028) | Mar.2024 - Present
Seoul, Korea |
| • Keimyung University
M.S., Computer Engineering | Mar.2021 - Feb.2023
Daegu, Korea |
| • Keimyung University
B.S., Computer Engineering | Mar.2017 - Feb.2021
Daegu, Korea |

RESEARCH & WORK EXPERIENCES

- | | |
|---|---------------------|
| • Research Student
Soft Computing Lab, Yonsei University, Korea | Dec 2024 – Present |
| ◦ Focus: Trustworthy AI (XAI) for multimodal and agentic systems | |
| ◦ Multimodal Model | |
| * Hallucination mitigation — fuzzy rule-based contrastive decoding [C.3] | |
| * ongoing : attention-based steering, co-occurrence bias removal [ongoing] | |
| * Logical reasoning — abductive reasoning, situation working memory [C.4, C.8] | |
| * Representation learning — hierarchical prototype learning [C.5] | |
| * Spatial reasoning — perspective/viewpoint consistency [C.7, C.9] | |
| ◦ Multi-Agent LLM Systems | |
| * Orchestration — BDI-based multi-agent framework [ongoing] | |
| * Failure attribution — error localization in agent trajectories [ongoing] | |
| • Research Student
AndLab, Korea | Mar 2023 – May 2023 |

- **Visual Question Answering** — survey, *ACM Computing Surveys* [J.1]
- **Research Student** Jan 2021 – Feb 2023
ISIP Lab, Korea
 - **Facial expression recognition** — spatial transformer networks, CNNs [C.1]
- **Research Assistant** Jan 2022 – Dec 2022
DGIST, Korea
 - **Camera calibration** — relative orientation, unsynchronized viewpoints [C.2]

LEADERSHIP

- **Leader of Neuro-Symbolic Research Group** Feb 2024 - Present
Soft Computing Lab, Yonsei University
 - **Mentoring** — junior researchers, acceptances at *ICLR 2026*, *PAKDD 2026*, *ACL 2026*
- **Women Graduate Student Engineering Research Team Program** May 2022 - Oct 2022
Korea Women in Science and Technology Foundation, Korea
 - **Principal Investigator** — Korean Visual Question Answering (VQA) model

REGISTERED SOFTWARE (COPYRIGHT)

- **Working Memory for LLM Agent** 2025
Korea Copyright Commission (No. C-2025-038246)
- **Dual LLM Improving Symbolic Logic for Knowledge-based Visual Reasoning Model** 2024
Korea Copyright Commission (No. C-2024-035398)
- **LoCoT: Logical Chain of Thought Reasoning for Visual Language Model** 2024
Korea Copyright Commission (No. C-2024-035781)

SKILLS

- **Programming:** Python, C, C++, C#, Kotlin, JavaScript
- **Frameworks:** PyTorch, TensorFlow
- **Research Methods:** LoRA fine-tuning, multi-agent LLM orchestration, attention-based interpretability probing, LVLM benchmark evaluation
- **Languages:** Korean (Native), English

ACADEMIC SERVICE

- **Reviewer:** *NeurIPS 2026*
